# Wide range of coloured foil finishes

All aluplast coloured foil finishes feature innovative technology which improves performance characteristics providing a much longer life cycle of the surface finish. Our lamination foils utilise special patent-protected pigments which considerably reduce the surface temperature of coloured foil finished profiles.

The IDEAL systems are available in a beautiful white lustre finish (RAL 9016) and also in the following elegant coloured foiled finishes as a standard stock offer:

- Rosewood foil on one side on white base
- Rosewood foil on both sides on brown base
- Golden Oak foil on one side on white base
- Anthracite Grey Sanded on both sides on a dark grey base
- Palisander (black) foil on one side on white base
- Cream foil on one side on white base
- Anthracite on one side on white base
